From here, the worship of precinct deities begins.

In the 4th precinct, starting near the angle facing us, we should perform the pooja, moving counter-clockwise. In this way, one should complete the pooja in successive precincts and reach the Bindu Sthana.

Sandalwood paste should be prepared by mixing sandalwood powder with water. Pooja should be performed by reciting the mantras (complete pooja procedure with mantras is included on the website) and placing drops of sandalwood paste in the respective positions. Starting with the 4th precinct (the one with 14 triangles), perform the same procedure in every precinct and reach the Bindu Sthana.

**4th precinct – 14 triangles**

**(first precinct that has triangles)**

**5th precinct (enclosure) – 10 triangles**

**6th Precinct – 10 triangles**

**7th Precinct – 8 triangles**

**8th Precinct – Central Triangle**

**9th Precinct – Bindu**

**10. Bindu, and triangle**

Worshipping the precinct deities in this order with sandalwood completes the pooja.
